

Who gets to see the light?

Michael Todd Edwards

Professor, Curriculum and Instruction · Miami University

Fractions are freedom.

How do you challenge a mind with fourth-grade fractions?

$$\frac{1}{700}$$

today's world

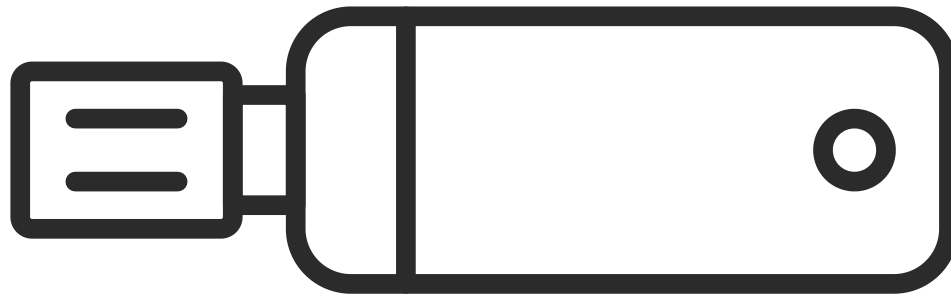

$$\frac{1}{15}$$

Lifetime (USA)

$$\frac{1}{5}$$

Black men (USA)

Cy

free.

free of cost

a free model, open tools, a \$5 drive — copy it, give it away; no subscription, no gatekeeper.

free.

free from being watched

your reading, questions, and notes
never leave the machine — no
account, no logging, no one
watching what you wonder.

free.

free to think · free to question

what my students in prison wanted
most: to be taken seriously as
minds — heard, and challenged. A
mind free to question can't be kept
in the dark.

the right not to be
kept in the dark

“To make a contented slave, it is necessary to make a thoughtless one. It is necessary to darken his moral and mental vision, and, as far as possible, to annihilate the power of reason.”

— Frederick Douglass, *My Bondage and My Freedom* (1855)
